

**LINCOLN ESTATE
GROUPS PLAN
FOR PLAYGROUND**

The Community club of Lincoln Estates held a called meeting January 6, 1952, for the purpose of deciding whether to continue the club or disband and the disposition of the money in the treasury, which had been held pending purchasing a suitable location for a community playground.

It first being necessary to elect a president for the club, the former president having moved to Florida, Bill Lockwood made a motion to elect Norman Bradley, which was seconded by Clarence Neidringhaus and the motion carried. A location and proposition was presented by O. R. Andrews, chairman of the club, which was the purchasing of the lot adjoining the Ann Rutledge school on the north from Harold Russell, who had agreed that as long as it was for the community he would sell at a reasonable figure.

As the club did not have sufficient money on hand it was presented to the PTA to complete the financing through everyone in Lincoln Estates contributing whatever amount they desired.

At the PTA meeting January 15, Mr. Bissell, president of the Lincoln Estates PTA, held an open discussion and the proposition was received very enthusiastically and it was unanimously voted that the PTA would conduct a canvas and accept pledges for this purpose. Mrs. Vivian Kluth volunteered as chairman of the committee; she to arrange a house to house canvas so that all Lincoln Estates residents, both north and south of the highway, will have an opportunity to share in this good-will project. This property will be used as a community playground, ball diamond or whatever it may develop for the good of the community.

**A. KRUSEMARK
HEADS FRANK.
STATE BANK**

At the annual meeting of the stockholders of the Frankfort State bank Tuesday, January 8, the following directors were elected: Herman Barlewort, A. C. Bauch, Alvin Bruggeman, Walter Haas, A. J. Heuser, Ben Mager, Attorney A. H. Krusemark, William Wischover, and the cashier.

The officers elected were president, A. H. Krusemark; vice-president, William Wischover; secretary A. C. Bauch.

The stockholders also unanimously adopted special resolutions, providing for a stock dividend of 100 per cent. This results in the increase of the capital stock of the bank from \$25,000.00 to \$50,000.00. The number of the board of directors was also increased from five to nine members.

A resolution was adopted limiting the ownership of the shares of the bank to 10 of the old shares or 20 of the new shares in any one stockholder.

The stockholders felt that by adopting these resolutions the effect was to allow a larger ownership of the shares of stock and a wider representation on the board of directors. It was felt this would result in an increase in the service of the bank to the community and in the efficiency of the bank.

Several applications are pending for cashier of the bank, and the board hopes to be able to employ a cashier in the near future.

After a lesson on "Art Principles as Applied to Home Decorations" given by Kay Alderson, the members enjoyed a game. Luncheon was served by the hostess. The February meeting will be held in the home of Mrs. Spencer Samuel.

Mokena School News**Third-Fourth Grade**

Since most of our learning at school depends upon abilities to read the printed page we spend much time learning word attack skills, how to interpret what we read, how to read to find out, how to enjoy reading, how to read to an audience, how to follow printed and written directions and many other reading skills. Many children show much interest in independent reading. Especially do they seem to enjoy the 1951-52 Reading Circle books.

We enjoyed our trip to Mrs. Renfro's room to see the Hansel Gretel gingerbread scene. The doll exhibit in her room last week especially appealed to the girls.—Mary Joy Leedom.

Fourth-Fifth Grade

Geography review work is being done by both classes. William Sayers, the manager of our map department, is kept busy placing proper maps at our disposal.

One period since our vacation was used in telling the different things we received for Christmas.

Jean Florey, our room receptionist, voices our thanks to Marilyn Cooper for her splendid cooperation during our Christmas play rehearsals.

Addition, subtraction and multiplication are our daily habits for arithmetic; especially as our second quarterly tests will come January 18.

Reading Circle Books are being worked on during our "free" moments.

Sixth Grade

While Mrs. Hilda Sehnman is in California, Mrs. Edith Warning of New Lenox is teaching the sixth grade.

The class has completed all the assignments for the second quarter and are busy reviewing for the semester tests to be given January 18. These tests will cover the first half year's work.

For our art class we cut designs from a folded piece of construction paper. The designs included lamps, candles, trees, snow men, vases and rocket ships.

Mrs. Warning is reading us the book Chief Black Hawk by Frank L. Beals. It is a story of the Sauk Indians and their chief, Black Hawk.—Edith Warning.

Mrs. Leo Peterson, chairman, Mrs. Ruth Burns and Mrs. Howard Osmus were elected to serve on the nominating committee.

Mrs. Stanley Johnson asked all officers and chairmen to have annual reports completed to be present at the next executive board meeting.

Plans have been completed for the PTA to sponsor a "Hard Time" dance on February 16 in the school gym. Ernest Hoger's band will furnish the music.

Mrs. Fred Harnack, general chairman of this dance will be assisted by Mrs. Milton Subbert and Mrs. Clyde Reils. Tickets can be purchased from any PTA member. The member selling the most tickets will be awarded a prize.

Any member wanting extra tickets may contact Mrs. F. Christiansen. Room attendance awards were presented to Mrs. Fulton's and Miss Lankenau's rooms.

Refreshments were served by the following committee: Mrs. Alfred Zechlin, Mrs. Burton Breidert, Mrs. Burnett Schramm, Mrs. Harold Heisner and Mrs. Daniel Johnson.

**FARM AND HOME
WEEK JAN. 28-31
AT URBANA**

The Illinois Farm and Home week sponsored by the state university will be held Jan. 28 through 31, in Urbana. Education and recreation activities have been planned for the hundreds of farm operators and young people who will attend.

Rosemary Archibald of New Lenox and Viva Moody, Whiteside county, who spent four months last summer living on several European farms as International Youth Exchange delegates, will tell of their experiences.

The program will include half day sessions on selection and care of tractors, information for swine, poultry, sheep and beef raisers, dairy calf raising and a review of research on crop production and scientific management of land. Other half-day sessions will be held on legume grass crops, dairy and grain farms.

For the women, 13 special classes are scheduled as a new type of program this year.

Entertainment includes such things as open house in the Illinois Union, Music and Drama festival, various banquets, winter festival and other events.

C. L. Jordan, program chairman, says there'll be no housing problem since plenty of rooms are available in University dormitories and private homes at \$2 to \$3 per night.

For an educational, mid-winter vacation, this is the opportunity by attending Farm and Home week, January 28-31, in Urbana.

PRICES MAKE
LOCAL HISTORY**

The Krusemark-Marti sale of registered Holsteins held January 12 made history for this farming community.

In the highest averaging sale of its kind ever held in the memory of local citizens 63 head of cattle brought a total of \$23,600 or an average of nearly \$450. In figuring sale averages, calves cataloged with their dams are totaled with their dams.

Seventeen head brought more than \$500 each, with two above the \$1000 mark. The top at \$1075, a three year old daughter of a former herd sire. This heifer, Segis Carnation Black Topsey, was purchased by William Bernard of Mokena. The herd sire, Carnation Revelation Governor, went to Henke Bros. of Tinley Park for \$1035.

The largest purchaser in both numbers and amount was Albert Lorenz of Orland Park, who took 10 head for \$3,985. Bidders were present from three states and a large crowd was in attendance until the last animal was sold. The auctioneers were Edward Schmaedeke of Orland Park and Charles Erickson, Mokena with an assist from Dick Zeilstra. Clerks were Fred Krog and George Schroeder.

The sale was necessitated by the settlement of the estate of the late Albert Krusemark Sr. and was held under the management of the Chicago Title and Trust company.

The present tenant, Arthur Marti, is retiring from farming to take up residence in Frankfort and the farm will now be operated by Albert Lorenz and sons in partnership with Attorney Albert Krusemark Jr., son of the founder of the herd.

5 bushels an acre

if your corn planter misses 5 kernels in 100!

Five bushels an acre is too much to pay for inaccuracy. No wonder our performance-restoring IH 5-Star planter service is such a bargain!

Today's 4 to 5-mile-an-hour planting speeds multiply the waste caused by worn parts, sluggish operation.

If you've used your planter several seasons, it probably needs service. Whether you check or drill or hill-drop, it will pay you to restore your planter to "like new" performance. Call us for a pre-season inspection date—today!

New '52 Henry J Vagabond

Smart, new edition of America's most practical, lowest-priced, full-size car.

Outside, it's a harmony of smart, new colors and exciting European lines; inside, it's richly clad in new and beautiful upholstery.

As for performance, it's definitely a car for the open road. Its Supersonic Engine eats up the miles, but scarcely touches the gasoline. It delivers up to 30 miles per gallon—with a new kind of flashing getaway that takes your breath away.

Take a demonstration ride in the '52 Henry J Vagabond today.

New '52 Kaiser Virginian

The first car to combine European smartness with tested and proven American engineering.

From its windswept grille to its dramatic new rear-mounted chrome-clad spare wheel, the Virginian is the last word in automotive styling today!

It has all the famous Kaiser-engineered exclusive features: the powerful and economical Kaiser Supersonic Engine; the greatest visibility in any sedan; the smoothest, surest ride, thanks to the lowest center of gravity in any standard car; the richest colors, smartest 1952 fabrics and appointments!

We suggest that you see it today at your Kaiser-Frazer dealer's.

Need Fertile Soils For Health Building High Protein Foods

FARM soils must be kept fertile if
we are to supply the protein foods
needed for good growth, sound health
and the creation of new life, declared
the Middle West Improvement Com-
mittee, in citing a recent statement
by Dr. W. A. Albrecht, head of the
University of Missouri soils depart-
ment.

"Foods high in protein, such as
meat, milk and eggs," said Dr. Al-
brecht, "are the very products of
reproduction. Proteins are nature's
complex creations through which
alone life can flow."

"When a soil loses its protein-mak-
ing elements either through over-
cropping or erosion, it grows
starchy, or woody plants, if any at
all. While these foods are filling and
may put on fat, they do not cause
growth in animals or children."

Many of our farm soils are reach-
ing the point where they are losing
their ability to create, Dr. Albrecht
said. When that happens, erosion is
more rapid and serious.

Dr. Albrecht recommended a soil
building program that adds nutrient
elements through the use of fertiliz-
ers. This, he said, will result in more
production and less erosion.

Dr. Turk pointed out that those
who advocate the use of compost or
manure to increase the soil's organic
content are performing a definite
service. But in condemning the use
of chemical fertilizer, he said,
"some people are doing a distinct
diservice to the nation."

"For efficient crop production," he
said, "lime, fertilizers and organic
matter must go hand in hand. Or-
ganic matter is dependent upon
plants. And plants are dependent,
among other things, upon an ade-
quate supply of soil minerals."

The most effective means of add-
ing organic matter to large fields
is by an intelligent use of purely in-
organic fertilizer, Dr. Turk be-
lieves. Growing a cover crop
through the use of commercial fer-
tilizer and plowing it under adds
greatly to the organic matter in the
soil.

Dr. Turk said no proof has been
offered that crops grown without
chemical fertilizer are more free
from disease and insects than are
crops produced with commercial
fertilizer

Choose a JOHN DEERE Integral Plow

...For Unsurpassed Plowing Performance

...Freedom From Costly Delays

Here's integral plowing at its best... with an integral 2-bottom plow made especially for the John Deere ABG-2000 and MC-1000 Integral Tool Carriers.

It's a rugged plow with all the advantages of an integral plow plus the sensational safety trip standard, exclusive with this John Deere Plow. When an obstruction is hit in the field while plowing, the quick-acting spring release, built into the standard, allows the individual bottom to swing back, up, and over the obstacle. Chances of damaging the plow bottom, frame, or carrier are decreased measurably as are costly delays when plowing time is short.

Add quality workmanship, which is always yours in a John Deere Plow, and you'll agree—this is the plow for you. See us for complete details.

The "KEY" to "AUTOMATIC WATER"

Like a magic key Jacuzzi—"two pumps in one"—unlocks the water beneath the earth and makes it available at the turn of the tap. IN MEMORIAM

TRIEB, ALMA.—In loving memory of our dear wife and mother who passed away one year ago January 16.

You left behind some broken hearts
That loved you so sincere;
That never did nor never will
Forget you Mother dear.

Since you've gone first and we remain
To walk the path alone,
We live with sweetest memories
Of the happy days we've known.

Will always think of these happy days,
When we were all together;
Your loving smile, your kindly ways,
Will live in our hearts forever.
Sadly missed by your loving,
HUSBAND and CHILDREN
